Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. * * * It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Hobart A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D. and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a *professional* endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff Is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

HARTJE CASE NEARING THE END.

After but a brief session of court yesterday morning in Pittsburg, Pa., the great Hartje divorce trial came to an end. Next Monday the court will hear the arguments of the attorneys and will render a decision in September. Following the sensational events of Wednesday yesterday was an exceedingly quiet day, although the testimony presented by a couple of witnesses for Mrs. Hartje yesterday morning was of great importance.

The witnesses swore yesterday morning that Edward Hartje had told them, April 12, that he had a number of letters which Mrs. Hartje had written to other men.

"Personally," said Mr. Hartje, who is a brother of the libellant, "I never saw anything wrong with Mrs. Hartje. She always appeared to be a perfect lady. But, of course, you know, the family is always the last to hear of anything like this. Since the separation I have come into possession of letters Mrs. Hartje has written to other men which prove her to be a very bad woman."

Last Monday detectives employed for Hartje testified they had entered Tom Madine's room in his boarding-house and stolen the letters used in the case from his trunk. This robbery occurred June 18. These were the only letters presented in the trial of the case. Several torn scraps of letters which Edward Hartje dug out of an ashpile were also placed in evidence. They were of no importance.

The whole fight centered on these letters. They were the only evidence which the libellant presented to prove his charge that Mrs. Hartje had been too friendly with Tom Madine. Several letters written by Mrs. Hartje's sister, which were also dug out of the ashpile in pieces, were pasted on cardboard, and by these fragments the libellant attempted to prove that not only was Mrs. Hartje too friendly with Madine, but that her sisters—one aged 16 and the other 20—aided and abetted the intimacy and acted as go-betweens for them.

As soon as the case closed yesterday offers of wagers became plentiful, but there were few takers, although odds of 10 to 1 were offered that the woman will win. Attorneys spoken to on the subject believe that the case is going to be decided in her favor. They based their belief on the fact that the only evidence Hartje presented in defense of his allegations was the letters, and these are declared by the defense to be forgeries.

The relief of all sides, when the long trial came to an end yesterday, was manifest. With over 3,000 pages of testimony it breaks all records for a divorce in Pennsylvania, perhaps in the country.

FAY TEMPLETON WEDS.

Announcement was made in Philadelphia yesterday of the marriage Wednesday of Fay Templeton, the actress, to William Patterson, of Pittsburg. The ceremony was preformed by Rev. F. G. Steinmetz at the home of Dr. Giles, a brother-in-law of the bride, at Ridley Park, a suburb of Philadelphia Immediately after the wedding the couple departed on a brdial tour.

From time to time Miss Templeton has been reported as being engaged to various men. A week ago it was reported on Broadway that she was soon to wed. At the close of the Chicago engagement she gave the members of her company a supper on the theater stage. Her finance was present and distributed gifts. It is said that Miss Templeton will remain on the stage for another season, and then retire to private life.

This is not the actress's first matrimonial venture. She was divorced from W. H. West, the minstrel man, after a honeymoon of six weeks, West alleging that she deserted him.

Her next husband was Howell Osborne, a well-known character in fashionable and sporting circles of New York. Osborne's acquaintanceship with Fay Templeton was bitterly deplored by his mother, who made her will in such form as to cut him off should he ever marry an actress. In court proceedings that followed it became known that Osborne and Miss Templeton had been secretly married at the time the will was made.

Miss Templeton won fame in the company of Howard Osborne after her divorce. Osborne was a son of Charles J. Osborne, who accumulated a fortune as the favorite broker of Jay Gould. Miss Templeton traveled abroad with Osborne and before his death their marriage was announced. Osborne left her a fortune.

Miss Templeton was a central figure in a theatrical sensation in London in 1887. She was dismissed by George Edwardes because the Lord Chamberlain complained that her song and dress were indecent. Miss Templeton sued out an injunction and forced Edwardes to let her appear without the silk sash stipulated by the Lord Chamberlain.

Fay Templeton is 45 years old, and has had a stage career of 41 years. Her father, John Templeton, was a well known southern manager and player, and her mother, Alice Vane, was a singer. The daughter was born at Little Rock, Ark., in 1861, and played in her father's company at the age of four. Since then she has appeared in a long line of musical comedies and comic operas.

Saloonkeeper Killed.

J. G. Wellington, a Memphis saloon keeper, was killed; W. J. Cooke, a judge of election, is fatally wounded, and B. E. Conn less seriously injured, in a fight at a polling place a few minutes after the closing of the polls for the election of county officers yesterday. Wellington insisted on being present at the count of the ballots, and in an argument he is said to have drawn a revolver and begun shooting. According to the story told to the police, Conn rushed out of the polling place, secured a shotgun, and began firing. The first shot fairly riddled Wellington with buckshot. Wellington kept on firing until he dropped, and when the smoke of the battle cleared away Cooke was found on the floor desperately wounded, a bullet from Wellington's revolver having pierced his side.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, AUG. 3, 1906.

THE recent address of Festus J. Wade before the Tennessee Association of Bankers pointing out the enormous increase in the trade of the South and the exploiting of its natural resources makes an extraordinary and wonderful showing of the increase in material wealth. The southern states have made this great progress, although handicapped by the weight of tariff protection which has plundered her people of hundreds of millions of dollars without any corresponding return. All the South buys is increased in price on an average 47 per cent. which statistics show is the average increased cost of living since the republican tariff was imposed in 1897 to protect the trusts, hardly any of which combines are located within her borders. Cotton, her great staple, has no protection, nor could it have, if the South was to have the making of the tariff schedules, for the surplus, after supplying the United States, is sold in the world's markets at the price the foreign spinner is willing to give. The protection to her few sugar and rice planters is a curse to her people, making them pay double price for those necessities, thus helping to add to the increased cost of living of all her people. The tariff on lumber mainly protects a few northern timber speculators that have invested in her forests and plunders every one that builds and all that rent by adding to the cost of building. With the tariff burden laying its heavy hand on all her people the prosperity of the South speaks eloquently for the industry and thrift of her people. With the tariff burden lightened, so as to produce only the necessary revenue for the government, how much greater would have been her material prosperity! The numberless millions extracted from pockets of white and black alike would have been added to the further improvement of her fields and cities and under such greater freedom her growth and greatness would be the wonder of the world.

THE NEWS from Russia now is as unreliable as it was during the Japanese-Russian war and should be taken with a sack of salt. Yesterday's telegram portrayed a most terrific state of affairs in that unfortunate country, but later U. S. Ambassador Meyer, at St. Petersburg, wired the State Department that the revolt of soldiers had been suppressed and the city was o[illegible]. He declared that the re[illegible] a board the Russ[illegible]nied. It will be [illegible]t year when Mr. [illegible]at ship builder, re[illegible]y he stated that [illegible] and bloodshed in [illegible], published broadcast in [illegible]ited States, caused no more excitement in that city than was incident to an election day row in New York city.

JUDGE SULZBERGER, of the Philadelphia Court of Common Pleas, in resisting the desire of the grand jury to indict a street cleaning contractor, announced the doctrine that the newspapers are a fundamental part of the government. "If a member of the grand jury has any criticisms to make of administrative matters," he said, "he should go to a newspaper with them and not endeavor to transform the grand jury into a machine for investigations on its own account." He says that the constitution recognizes the press as a critical agent, and that it is their duty to find out evils and bring them to the attention of the proper authorities.

THREE years ago Secretary Shaw chuckled as he told the Washington correspondents that Gov. Cummins had "slid down the pole" because he had been compelled to leave the "Iowa idea" out of the State platform. Now that Gov. Cummins has the next senatorship in his grasp, and will be Iowa's "favorite son" at the next national convention, the secretary of the treasury realizes that he made a slight mistake and that which he said to the correspondents was a "—injudicious remark."

SOCIALISM and anarchism are the true and essential products of the trusts. Material prosperity is only a by-product. The republican party is responsible for the essential outcome of its policies and principles, but it deserves no credit for anything else. In the growth of socialism and anarchy, as the true offspring of protectionism, one can see the real port towards which Dingleyism is steering the ship of State.

ACCORDING to a decision by Assistant Secretary of the Treasury Reynolds the Isle of Pines is Cuban, and therefore foreign, territory, merchandise from that country being subject to the same duties as that from Cuba. Mr. Reynolds could not well have decided otherwise.

THE Southern cotton planters, entirely unprotected by the tariff, are quite prosperous and are organizing to protect themselves from the protected monopolists. How do the republican standpatters explain this prosperity of the unprotected?

AS THE President now has $25,000 a year to spend on junkets for himself and friends, he can make a stumping tour of the congressional districts that are considered doubtful for the republicans.

A SAFE prediction is that it will rain.

From Washington.

[Correspondence of the Alexandria Gazette.]
Washington, Aug. 3

President Roosevelt has conferred upon Charles P. Neill, his personal representative with James B. Reynolds in the initial packing house investigation in Chicago, an honor by designating him as acting secretary of the Department of Commerce and Labor. Mr. Neill, in addition to his special work for the President, is the head of the bureau of labor in this department. This is the first time that the succession has gone so far down the line in the department. Secretary Metcalf is in California on a two months' vacation. Assistant Secretary L. O. Murray has been taking a month's vacation at his home in New York but will not return until next week. James R. Garfield, commissioner of corporations, who has acted previously when both the Secretary and Assistant Secretary are absent, has left Washington for a brief rest. This is the first time that all three have been out of the city at one time. Consequently some one had to be authorized to care for the office, sign the public papers and keep all the wheels of the department in motion. President Roosevelt selected Mr. Neill for the job and the packing house inspector has taken up his abode temporarily in the office of the secretary.

W. A. Miller, assistant foreman of the bindery in the government printing office, was today dismissed by Public Printer Stillings. Miller is the man whose former dismissal from the institution, two years ago, on account of his refusal to join the union, was revoked by President Roosevelt. At that time the President took occasion to pronounce the government printing office an "open shop," and to declare that membership in the union was not an essential qualification for employes of the government. Several weeks ago Miller was charged with insubordination for refusal to obey orders from a superior official. He was promptly suspended, and was called upon by the public printer to make answer to the charges. Miller ignored the matter and declined either to send in a written answer or to appear personally before Mr. Stillings. Ample time having been given him to change his mind, but without result, he received today the formal order announcing his dismissal from the service.

Damage by Rain.

Baltimore and vicinity were visited by another heavy rainfall yesterday. There was little damage in the city, although in several low-lying sections adjacent to Jones Falls sewers were choked up and cellars in many parts of town were flooded. By far the heaviest losses were sustained in Baltimore county, where, between 4 and 5 o'clock in the afternoon, there was a veritable cloudburst. Streams overflowed their banks, roads and bridges were badly damaged, and a number of the latter were swept away. Reports were received last night at Towson from various parts of the county to the effect that the unharvested crops on farms were beaten down and the cultivated fields torn into gulleys by the volumes of water which swept over them. Heavy losses were sustained to buildings and other property in the vicinity of Mount Washington yesterday. The water reached the high level, driving people from their homes. There was a cloudburst in the northwestern suburbs of Baltimore. At one time at least two feet of water covered the grounds at Electric Park, and the racetrack there was badly damaged.

Trouble on Brooklyn Bridge.

New York, Aug. 3.—An elevated car on the Brooklyn Bridge tied traffic for over two hours this morning, and one hundred thousand people were forced to walk the footpath or take the ferries in order to reach their places of business in Manhattan. Bridge conditions have been intolerable for years, and Brooklyn's helplessness is demonstrated when the break down of one car brings transportation to a standstill for hours. Another bridge has been completed and open for traffic for two years, but no trains are running because the two traction trusts, with which the city is inflicted, cannot agree as to which shall have superior rights to the bridge trackage. The city officials and so-called rapid transit commission supinely permit the people to suffer.

Gathered on the shore near the boat house, the scene of the accident, which is located at the foot of Ashburner street, Holmesburg, at the time of the drowning, were the members of Tomlisson's family, who had just started out for an afternoon's outing along the water.

Flood in the Eastern Branch.

Tearing down the Eastern Branch of the Potomac, and overflowing its banks to a depth along Riverdale road of four feet in some places, a torrent of water was yesterday flooding the homes of residents of Hyattsville and Bladensburg, and threatening a destruction that has thrown the people into panic. At a late hour last night it was thought that the electric railroad bridge near Hyattsville was likely to go at any moment. The water had hidden the rails at midnight, and the force of the torrent was swaying the structure to and fro with a violence that was alarming. The block station was notified early in the evening to hold up all trains, and until a late hour the flood steadily increased in proportions. In some of the streets of Bladensburg the water attained a depth of more than four feet. In dozens of homes the first floor was inundated, while much destruction is reported. Yards, lawns, and gardens were submerged, while pigs and chickens were carried away in the torrents of water. In many houses the alarmed people sat up all night in order to avoid disaster should it come, the water, instead of subsiding with the cessation of the rain, continuing to rise steadily. Fortunately no fatalities occurred.

Only $2 Duty From Big Liner.

The worst case of "frost" that the government ever encountered in its business of collecting duties from returning tourists was experienced yesterday, when the customs officials examined the baggage of 281 cabin passengers who arrived at New York in the North German Lloyd steamer Friedrich der Grosse from Bremen. Every one of the first and second cabin passengers made sworn declarations that they had purchased nothing abroad, and that they had nothing dutiable in their personal effects. Twenty clerks went down the bay to get the passengers' declarations, and 40 inspectors were at the dock to facilitate the work of inspection. One inspector found a near-gold watch that a second cabin passenger had failed to declare. When the customs cashier made his return with the solitary $2 bill the customs house officials were amazed. The incident is unparalled in government records.

Yates Martin and his sons, Silas and Alexander. They are now entrenched at the home of Martin, on Beaver Creek. Sheriff Hayes and posse are in the neighborhood, but it is not believed any arrests will be made. Every effort is being made to get a truce arranged, and to persuade Martin and his sons to surrender to the authorities. Beckham will be asked to send troops.

Today the detectives who are working on the case expect to arrest Hixton's accomplice in crime, also an employe of the bank. It is already alleged that the shortage will amount to $125,000, and it may be that when a complete investigation is made the loss will amount to over $250,000. New York Stock Market.

New York, Aug. 3.—In spite of the fact that no satisfactory news is to be obtained in regard to the supposed pending railroad developments, the market continued strong after the opening this morning and some further material gains were made in the first hour. Several stocks made gains ranging from small fractions to a point, but heavy selling orders were in the market and the supply of stocks was so large that buying orders at the advance were practically swamped for the time and continued offerings caused reactions on which practically all the early gains were lost,

Today's Telegraphic News

THE DISORDERS IN RUSSIA.

London, Aug. 3.—The correspondent of the Star at Kronstadt wires that the mutiny there was ended at midnight. Six of the mutineers have already been condemned and shot. A silence like that of the grave prevails in the streets of the city.

St. Petersburg, Aug. 3.—Despite the exciting events of the last few days in various parts of the empire, which have given the people plenty to talk about, St. Petersburg today was ominously quiet. Three fires were in progress at one time, but they created little stir. Just what is the significance of the unwonted quietness is not apparent.

The government is greatly alarmed because of the occurrences which have threatened to precipitate a revolt from one end of the country to the other, and the authorities are relaping into the most oppressive methods of reaction.

The difficulties of the liberal reformers likewise have increased a thousand fold. They believe that the precipitancy of the revolutionaries in starting the mutinies at Sveaborg and Kronstadt has seriously imperilled the cause of Russian freedom. The outbreak was hopeless from the beginning, they assert, as the revolutionaries lacked a clearly conceived plan, co-ordinated action, and a capable leader.

St. Petersburg, Aug. 3.—Trouble has broken out at Reval. It is impossible at this time to obtain details in regard to the outbreak.

Revolutionary leaders in St. Petersburg last night, after the collapse of the mutinies at Sveaborg and Kronstadt had become known, made the statement: "Watch Revel, Riga and Libau. Watch our brothers in the Baltic forts." In view of this statement the news of disorders at Reval today may prove very significant.

Warsaw, Poland, Aug. 3. 11 a. m.—The artillerymen in the summer camp at Rembertoff have mutinied. Infantry and Cossacks have been dispatched to quell the mutiny.

London, Aug. 3.—A dispatch to the Exchange Telegraph Company from St. Petersburg says that General Linevitch, who was the commander in chief of the Russian armies in Manchuria during the recent war with Japan, will be made commander in chief of the army at home, with the idea of restoring discipline in the army at any cost.

St. Petersburg, Aug. 3.—All the stations along the Finnish railroad from St. Petersburg to Viborg as well as the entire length of the coast are occupied by troops.

A dispatch at Helsingfors timed 4:45 a. m. states that the mutiny at Sveaborg has been completely quelled.

St. Petersburg, Aug. 3.—The early quietness which prevailed throughout the city changed this afternoon. Great crowds of workmen collected and processions were formed, the men marching through the streets from one factory to another in the endeavor to induce the great mass of workmen to strike. The great majority of the mills and factories were visited in this quest.

Whether or not the strike agitators will be able to bring about a general strike remains to be seen. The government has taken extraordinary precautions to prevent rioting in view of the change which has taken place in the attitude of the workmen. Police patrols are stationed in the streets, and the troops which have been kept in the capital ever since they were rushed here at the time the ukase dissolving the douma was issued, are held in readiness for any emergency. The soldiers are being kept in the background as much as possible that their presence may not incite the populace to acts of violence, but they are distributed in such a way as to make it possible for them to protect the city at all danger points. Fears are entertained lest there shall be some outbreak leading to bloodshed.

St. Petersburg, Aug. 3.—To add to the seriousness of the situation which already was fraught with great danger, it is probable that a fresh cabinet crisis will be precipitated by the action of the Czar is flatly refusing to agree to the condition upon which Premier Stolypin had succeeded in inducing men not connected with the bureaucracy to enter his reorganized cabinet. Official announcement of the Czar's determination was made today in a statement issued which said: "The reports that non-bureaucratic elements will enter the cabinet are untrue." As Stolypin has based his hopes of carrying out his policy of "high handed reform" on organizing such a cabinet, the refusal of the Czar to agree to his plan places him in a position where it is believed he will resign. There is renewed talk of the probability of the appointment of a dictator, and Grand Duke Nicholas is mentioned as the most likely individual to be selected for such a position. The recent mutinies have greatly alarmed the Czar and his bureaucratic advisers. Fresh troops are being brought into the city to strengthen the force already on guard. The alarm of the Czar is one of the things which has renewed the talk of a probable dictatorship.

London, Aug. 3.—A dispatch to a news agency from Reval in describing the mutiny which occurred yesterday on board the Russian cruiser Pamyat Azova says the outbreak on the part of the sailors began when a student, disguised as a sailor, arrived on the warship. An attempt was made to arrest the student, but some of the sailors prevented this, and shot four officers who ordered the man's arrest. Three other officers escaped from the cruiser in a small boat. The mutineers sank the boat with a shot, but the officers reached shore by swimming. The mutineers commanded the torpedo boat No. 106 to join the mutiny, but its crew refused and steamed away. A party of the mutineers left the Pamyat Azova in a small boat to visit the fortress with the object of inciting the garrison to mutiny The party, consisting of eight sailors and one civilian, leaders of the mutiny on the warship, was arrested on reaching land, however, and the other mutineers then weakened. The loyal sailors attempted to retake the ship and after a hard fight drove the mutineers into the forecastle. During the outbreak five officers, a doctor, engineer, and a subaltern, were killed. Two officers were wounded, one of them mortally. About 50 seamen were killed or wounded. Over 250 of the mutineers were sent ashore as prisoners.

Riga, Russia, Aug. 3—Dragoons last night raided a meeting of revolutionists which had been called for a secret conference in regard to future plans, and arrested 500 in attendance. Not a man escaped from the soldiers.

Stockholm, Sweden, Aug. 3.—The steamer Uleaborg, which has arrived here, states that the shore of one of the islands near Sveaborg fortress, Helsingfors, is covered with corpses. The crew counted 450 bodies in passing the island. Many of the bodies were mutilated. Hundreds of sailors from different points along the Baltic, who were on their way to assist the mutineers who captured the fortress at Sveaborg, have turned homeward since learning that the fort has been surrendered to the loyal troops.

An Italian Girl's Revenge.

New York, Aug. 3.—Outraged because he had robbed her of her honor, Mamie Schabare, an Italian, girl, 22 years old, shot and fatally wounded Nicolas Ferrarce, on Worth street near Baxter street, at noon, today. The streets were crowded with people and the young woman was seen to walk up behind Ferrarce and pulling a revolver from her waist began firing. The first shot lodged in the man's back and as he whirled around, the woman fired three more shots, two of which took effect in the abdomen and the other in the chest. The victim of the shooting fell unconscious. He was hurried in an ambulance to the hospital, where it was said that he would die. The woman was arrested and held without bail pending the result of her victim's injuries. Ferrarce is an Italian. The girl's story told to the police was that Ferrarce, who is a married man, had ruined her under promise of marriage. It was only recently that she had found that he could not marry her and she at once made up her mind to kill him.

Deed of Desperate Lover.

Kingston, Mass., Aug. 3.—Driven desperate by the belief that Miss Eveline Vezzani, one of the most beautiful girls in the town, was forbidden by her father to marry him and by the thought that she would not, as he had tried to persuade her, elope with him to New York, where he was intending to go, Remido Zechi, her ardent lover, fatally shot the 19-year-old object of his attentions at her home last evening, then shot himself through the throat, leaped through a screened window, ran frantically down a hilly terrace and committed suicide by shooting himself again in a near by woods. Miss Vezzani is expected to live but a few hours. She is the daughter of David and Emily Vezzani. In Zechi's pocket was found a letter which plainly indicates that Zechi had premeditated the murder because he could not think of going away without Eveline, whose father, he thought, rejected his suit.

Will Oppose Comstock.

New York, Aug. 3.—Anthony Comstock may find himself in hot water for his raids on the rooms of the Art Students' League, in the Fine Arts Building, and his seizure of 2,500 copies of the American Art Student last night. Although the postal authorities have given a permit for the periodical to be circulated through the mail, Mr. Comstock decided that the publication was immoral because there were several drawings from the nude in it. Members of the American Society of Fine Arts are outraged at the raid, and intend to bring Comstock to book for running amuck in the Art Students' League. Fears are expressed that unless Comstock, who is busy in the day time looking after the city's morals, and who prays in Summit, N. J., each night for the redemption of New York, is curbed he may break loose and raid the Metropolitan Museum of Fine Arts.

Wealthy Organ Grinder.

New York, Aug. 3.—It is estimated that Melcher Wideman, the blind organ grinder, who died a day or two ago in St. Soseph Hospital worth at least $50,000, must have ground out his favorite hymns, "Rock of Ages" and Jesus, Lover of My Soul," more than a million times during the twenty-eight years he played at the entrance to Glen Island, John H. Starin's summer resort at New Rochelle. Although the wealthiest organ grinder in the country, Wideman feared he would spend his last days in the poorhouse, and this preyed on his mind. Two weeks ago he became seriously ill and was forced to lay aside his hand organ and go to the hospital. Wideman had no relatives, and it is believed that he willed his hoard to the Catholic Church. A priest took charge of the body, which was buried in New Rochelle.

Mystery Concerning Subscriptions.

San Francisco, Aug. 3.—When subscriptions were received in New York for the relief of stricken San Francisco John D. Rockefeller subscribed $100,000 and the Standard Oil Company, was put down for the same amount. In the course of time an order was issued directing Superintendent Leach, of the Mint, to pay to the relief committee $70,000, being, as the order states, "a portion of subscription to the fund." At the relief headquarters they are waiting for the rest of the money, but it has not yet come. James J. Phelan, who directs the finances of the relief committee, was asked about the about the oil subscription and admitted it was a mystery to him.

Dream of Death Came True.

Sterling, Ill., August 3.— Robert Moore was found dead under the car wheels just as he dreamed during the night before the day he took out his train from the yards for Chicago. In the morning he told his wife of the awful dream, that he had been struck and killed by the Overland Limited. He made application for a lay-off, fearing that the day would bring forth its illluck. Owing to the short notice and the rush of work the company could not grant the request. Arriving at Rochelle, about 10 hours after the dream, he stepped in front of the Overland and was instantly killed.

Physicians Supposed to Have Drowned.

Ottawa, Ont., Aug. 3.—An upturned canoe, some scattered papers and an umbrella, found at Deux Riviere, has given cause for grave alarm that two well known physicians met death by drowning. Dr. Scott, of Philadelphia, and his nephew, Dr. Cram, of Montreal, went on a trip to Cobalt, and on their return were enjoying a canoeing expedition on the northern waters of the Ottawa Valley. They were unaccompanied so far as can be learned, and were expected to return to visit friends at Carleton Place, their former home, before going to Philadelphia and Montreal again. Word was received at Carleton Place today of the finding of the canoe and other articles and great fear is felt that they have met an untimely death. Searching parties are at work, and the only hope that is entertained is that they may possibly be marooned on some island, the canoe breaking its moorings and floating away. The finding of the canoe upset, however, looks ominous, and the result of the search is anxiously awaited. Both doctors were former residents of Carleton Place, and are well connected there.

School Board.

At a regular meeting of the City School Board held last night there were present Messrs. Thompson, Stabler, Yates, Ramsay, Thomson, Bradshaw, Carne, Boothe, Carter, Dr. Smith and the Superintendent.

In the absence of the chairman Dr. Smith presided.

Mr. Yates reported that the committee on schoolhouses and furniture had made a thorough examination of the school property and found it necessary to make considerable repairs. Seaton and the old building of Washington School needed reroofing and repairs were also needed on the roof of Hallowell building; steps were needed at the old Washington building; the blackboards and ceilings in several of the buildings needed repairs and some whitewashing and brick work was also necessary. He said the erection of a fence around Washington building should be commenced as soon as possible and he presented a bid from Mr. J. T. Harrison for $250 for the work.

After some debate as to whether the board would have sufficient money to make the improvements, Mr. Stabler moved to give the work to the lowest bidder, and the motion was carried. Mr. Harrison's bid for the fence, being the lowest he was given the contract.

Several bills for repairs were ordered to be paid.

The City Treasurer's annual report of the receipts and expenditures of the board, accompanied by the proper vouchers was presented by the Superintendent, who stated that the accounts had been examined by the finance committee and found to be correct. The report was accepted and the Clerk was directed to certify to the correctness of the same to the proper authorities at Richmond.

The Clerk submitted his annual report of the receipts and expenses of the board showing receipts of $21,866.41 and expenses of $21,798 02 leaving a balance of $68.39 and the reports was received and accepted.

The Superintendent then moved to go into the election of teachers and read a list of the present salaries.

Messrs. Thomson and Bradshaw, of the finance committee stated that they had been assured that the City Council would appropriate a sufficient sum to make the school fund equal to that of last year.

Mr. Ramsay moved that the salary of the principal of Lee school be fixed at $700 and that the salaries of all the other teachers, except the three who, under the rules, were entitled to an advance of $50 each, remain the same as last year, and his motion was carried.

Miss V. Ada Grigg was then elected principal of Lee school.

Applications for the position of teacher, in addition to those read at the last meeting, were received from the following and ordered on file viz:

Miss Mary Glenn Austin, of Chicago, for principal of Lee school; Mrs. Nettie F. Stokes; Miss Ella Haupt, of Leesburg; Miss Alberta Jett, of Stanleyton; Miss Mary Giles Garnett, of Washington; Miss Elizabeth Rice, of Lynchburg, and H. H. Chalmers, of Boydton.

Mr. H. W. Rinker, of Leesburg, withdrew his application for the position of teacher.

Mr. Stabler moved that all the present teachers be re-elected, and his motion was carried.

To fill the vacancy in Lee school Miss Elizabeth W. King was elected teacher and her salary was fixed at $400.

The present janitors were re-elected, though it was stated that Wm. Fortune did not care to be re-elected janitor of Hallowell building.

The clerk was directed to commence the issuing of permits to children to attend the schools on Monday, September 10th, and to make the necesary arrangements for the opening of the schools at that time.

The board then adjourned.

Death of Mrs. Boyce.

Mrs. Mary E. Boyce died at the residence of her daughter, Mrs. R. W. Gaillard, on south St. Asaph street, yesterday afternoon. The deceased was a native of South Carolina, and was born at "Fonte Flora," the old family seat in Fairfield county, about twenty miles from Winnsboro, in that State. Her father was Dr. George B. Pearson, a well-known and honored physican of South Carolina. She had lived in this city and vicinity for a number of years. She was the widow of the late Hon. W. W. Boyce, who was in the olden time a prominent figure in South Carolina as well as in national affairs. He was a member of Congress from that State from 1853 to 1861, and during the civil war was a member of the Confederate Congress. At the close of hostilities he with his family moved to Virginia and practiced law in Washington for a number of years. The family for a long time lived near Franconia, Fairfax county, but during late years they had resided in Alexandria. She was of a gentle disposition, and made friends of all whom she met.

Short services will be held at the residence of the deceased at 6 o'clock this evening by Rev. Dr. S. A. Wallis and tomorrow the remains will be taken to South Carolina for interment.

Electrician Kirby Resigns.

Mr. Lee S. Kirby, who has held the office of city electrician of Alexandria for fifteen years, has tendered his resignation, to become effective September 1. He has accepted a position with the Nigh Electrical Company, of Washington. Mr. Kirby came to Alexandria from Middletown, Conn., about seventeen years ago, to superintend the construction of the present lighting plant in this city, and was subsequently elected to the office of city electrician. As the city has disposed of the electric franchise and will in a few months cease the operation of its electric plant, Mr. Kirby deemed it best to accept at present the flattering offer made him in Washington.

There was but one case before the Police Court this morning, that of a white man who had been arrested by Officers Jones and Bell for disorderly conduct. He was fined $5.

Mutiny on Steamer.

Four colored deckhands of the excursion steamer St. Johns, were arrested in Washington yesterday at the instigation of Capt. Randall. They were charged with mutiny. The mutiny, it is said, was of the wildest character. The steamer left Colonial Beach Wednesday night at the usual time. After the boat had reached midstream, it is alleged, Capt. Randall had occasion to summarily dismiss one colored helper. The four men now in custody at this juncture started for the captain's quarters, making dire threats against the master of the steamer. Capt. Randall was in his office when the four colored men put in their appearance. He ordered them back to their quarters but instead of obeying they sprang upon the officer and threw him to the floor. Randall called for assistance, and succeeded in attracting the attention of the purser and other employes. When the rescuers arrived there was a fierce hand-to-hand struggle, in which serious injuries were sustained by several of the combatants. Finally the four mutineers were overpowered, and their hands bound behind them. Subsequently they were locked in the hold, and with the arrival of the vessel at Washington were placed under arrest.

The Jackson-Phillips Brick Company Case.

Under Judge Nicol's opinion rendered yesterday the attachment for $5,000 was sustained; the bonds for $19,000 were sustained and the claim of Mertens & Agnew was cut down from $3,800 to $1,200. The Court held that the trustees in the deed of trust were properly appointed. All these points were in favor of the defendant. The Court held in favor of the plaintiff that it would retain jurisdiction and sell under order of Court. It also held that about $12,000 received for the sale of certain property, should be credited on the above bonds for the benefit of the general creditors of the Jackson-Phillips Brick Company. As Mr. W. H. Jackson, the holder of the bonds, is a general creditor to the extent of over $40,000, the decree only affects him to the extent of about $2,500, and to this extent the plaintiffs succeed. As stated yesterday, Col. F. L. Smith and Messrs. J. R. and H. B. Caton represented the plaintiffs and Messrs. Norton & Boothe & Huffty & Huffty the defendants.

Electric Shocks.

During the thunder storm yesterday evening Mr. W. M. Priest sustained a severe electric shock in his store in the northwestern section of the city. He had just taken the telephone receiver from the rack and was in the act of placing it to his ear when the wires were struck by lightning some distance off. The electricity ran into the store, severely shocking Mr. Priest and cutting the wrist of the hand in which he held the receiver.

During the rain yesterday evening lightning also entered the office of the master mechanic at the Southern Railway depot in this city. The lightning entered on the telephone wire and badly damaged the instrument. No one was hurt.

Charge Dismissed.

The case against George W. Riston, formerly lumber merchant of Fairfax county, charged with obtaining a check for $200 under false pretenses from Carter & Clark, commission merchants, in Washington on March 25, was dismissed yesterday in that city. It was alleged by Carter & Clark that Riston on that date said that he had 200 cords of wood for sale. A price was agreed on, and the commission firm say they paid $200 as partial payment. During the fall of the following year Riston failed, and his lumber yards were turned over to his creditors. No testimony was offered to show that Riston did not have the wood at the time the check was given him,

Midsummer Entertainment.

A midsummer entertainment was given the children at Crittenton Home last evening. Sweet strains of music were heard through the windows by way of gospel singing accompanied by a five-piece orchestra, under the direction of Mr. Padgett. There was an abundance of ice cream, cake, bananas and watermelon furnished by friends of the home and the children enjoyed a real treat. Captain John Thomas, of the ice laden schooner Henry Little was a guest of the evening, accompanied by his daughter and friends. Other friends helped to make the evening one of success. On next Thursday there will be a watch talk to which all are cordially invited.

Excursion Last Night.

The moonlight excursion last night of the Knights of Columbus on the steamer Jamestown was, as had been anticipated, an enjoyable affair. The excursion was well patronized and the members of the organization saw that all aboard had an enjoyable time. As a good many persons secured tickets and did not care to take the risk of encountering a storm on last night's trip, arrangements have been made, whereby all Knights of Columbus tickets will be honored on tonight's trip of the Jamestown, and persons holding same will have a voice in the awarding of two round-trip tickets to Norfolk.

King Street Lights.

It is said that the Alexandria county authorities and the Washington-Southern Railway authorities have had a conference in reference to placing lights on King street extended, and the work of hanging arc lamps from the new union depot eastward on that thoroughfare will soon be commenced. The railway company will place the poles in proper position, as requested by the county authorities.

The Macalester Excursions.

The steamer Charles Macalester, always a popular excursion boat, is carrying large crowds on her evening trips. The steamer stops at the foot of Prince street on Thursday, Friday and Saturday evenings. She proceeds to Marshall Hall and after touching at that resort runs down the river about 30 miles. These excursions are greatly enjoyed, especially on moonlight nights.

Departure of Club.

The Ramblers' Club, of this city, left here early last night on the schooner Laurenia E. Bramble, Capt. James Elliott, for Colonial Beach. They will remain at the beach for ten days. The Bramble was brilliantly lighted and a large number of friends of the members of the club were at the wharf to wish them bon voyage.

Although he is 75 years old, the love affairs of Daniel D. Brinckerhoff, a New York millionaire, who retired from the cracker-baking business after selling out to the National Biscuit Company over ten years ago, are still occupying the attention of the New York courts. Mr. Brinckerhoff has figured in two divorce cases, and while not yet done with the litigation arising from a $50,000 alienation suit brought against him a year ago by Dyke M. Oviatt, he is again made co-respondent in a divorce suit brought by Arthur L. Kugel against Lillian M. Kugel, and defendant in a suit for $50,000 for the alienation of Mrs. Kugel's affections.

The Baltimore and Ohio Railroad Company has indicated its intention of erecting two mammouth roundhouses in Washington at a cost of $400,000, for which building permits were secured yesterday. The roundhouses will be located in the yards north of New York avenue, between Fifth and Fifteenth streets northeast. According to the plans filed with the building inspector, the houses will be constructed in the form of a half circle, facing each other. The dimensions of the houses will be 450 feet on the open front, and each will contain twenty-five tracks, or stalls. In addition to the houses for the accomodation of the engines, there will also be a tool room, a machine shop, a repair shop, and all other equipment for the care of the motive power of the road converging upon Washington.

A Nose Tax.

A "nose tax" was in the ninth century exacted by the Danes from the householders in Ireland. It was so called not because it was levied on noses, but from the fact that a failure to pay was punished by slitting the nose from tip to eyebrow. It was continued during thirteen years, when the householders, objecting to this treatment of their nasal ornaments, rose in rebellion, massacred all the Danes in Ireland and put an end to the nose slitting.

Quite a Difference.

Employer—Young man, I hear that you bet on horse races. You are discharged. Youth—But my brother-in-law is a bookie. I have netted $600 on his tips this week. Employer—Ahem—er—close the door, please. Young man, your salary is doubled. Consider yourself my confidential adviser.—London Tit-Bits.

His System.

"I allus predict good weather," said the suburban sage.

"Why?"

"Well, if it is good I get credit fer it, an' if it ain't good the folks all allow that I done my best."—Minneapolis Tribune.

Hitting Him With the Truth.

Mr. Boastful—I wonder how it would seem if I could have all the money I have given to charity piled on a plate before me. Mrs. Boastful—I think you could still distinguish the plate.

A Bright Idea.

Theater Manager—I can't use your play, sir. It's too long for the stage. Amateur Playwright—But, I say—aw—look here—aw! Can't you lengthen the stage, you know?

Perhaps.

He—Why is it that unmarried women are usually "girls?" She—Possibly for the same reason that married men are mostly "boys."

New York's First Sidewalk.

The first sidewalk in New York was laid by a woman, Mrs. Samuel Provoost, about 1716. She was an importer and merchant and laid the sidewalk for the convenience of her customers. She had importuned the authorities to do it, but they refused, saying it was impossible. After her object lesson paving and curbing gradually came in, but for some time her sidewalk was so famous that people journeyed even from Philadelphia to see it.

Knew It.

"Well, after the dinner Boresome told a story about his exploits in Africa and then one about an Irishman he met in Switzerland."

"But I thought you were not at the banquet."

"Nor was I at this particular one, but have attended sixteen others where Boresome told these stories."

Bad Habits.

"It would be a very bad thing if farmers ever got control of the national finances."

"Why so?"

"Because from sheer force of habit they would want to be always watering the stock."—Baltimore American.

He Knew.

Meekly—Yes, we're going to move to Swamphurst. Doctor—But the climate there may disagree with your wife. Meekly—It wouldn't dare!—Philadelphia Ledger.

The Retort Professional.

Lawyer Quibble—You a doctor? Why, you couldn't cure a ham! Dr. Sawbones—And you, sir—you couldn't try a case of lard!

Our own heart, and not other men's opinions, forms our true honor.—Coleridge.

No Use For Them.

Customer (being measured in a fashionable tailor's shop)—By the way, what's your price for a suit? Tailor—Sixty dollars, sir. How many pockets would you like? Customer—No pockets at all. I shan't need any when I've paid your bill.

Poverty.

Poverty is very terrible and sometimes kills the very soul within us, but it is the north wind that lashes men into vikings; it is the soft, luscious south wind which lulls them to lotus dreams.—Ouida.

There is something on earth grander than arbitrary power. The thunder, the lightning and the earthquake are terrific, but the judgment of the people is more.—Daniel Webster.

Too Many.

"And David had five kings before him," read the pastor.

"Gosh!" exclaimed the man in the rear pew. "I'm glad David wasn't in the game last night!"

The first regular serial newspaper was printed at Antwerp in the year 1605 and bore the name of Niewelijdinghe.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by W. F. Creighton & Co., 401 Kingstreet.

Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs and colds or money refunded. At E. S. Leadbeater & Sons' druggists. 50c and $1.00.
